

Title	Content	Duration
Unit 821: Safe Entry into NC1 Confined Spaces inc Assessment Day	Preparing to enter a confined space Entering & exiting a confined space Emergency exit from a confined space	2 Days
Unit 822: Safe Entry into NC2, NC3, NC4 Confined Spaces using compressed air escape breathing apparatus as part of a planned means of self rescue. This includes the assessment day.	Preparing to enter a confined space Entering & exiting a confined space Dealing with emergencies Acting as Topman - Entry Point Controller Giving emergency aid All at NC2, NC3, NC4 Confined Spaces using compressed air escape breathing apparatus as part of a planned means of self rescue	3 Days
Unit 823: Safe Entry into NC2, NC3, NC4 Confined Spaces using oxygen re-breather escape sets as part of the planned means of self rescue. This includes the Assessment Day.	Preparing to enter a confined space Entering & exiting a confined space Dealing with emergencies Acting as Topman - Entry Point Controller Giving emergency aid All at NC2, NC3, NC4 Confined Spaces using oxygen re-breather escape sets as part of the planned means of self rescue	3 Days
Unit 824: Using self contained breathing apparatus as part of the planned means of self rescue at NC2, NC3 & NC4 confined space entries including Assessment Day &	Carrying out pre-use checks Using self contained breathing apparatus Carrying out post-use hygiene checks  <i>Candidates for this unit must have successfully completed 822 or 823</i>	1 Day
Unit 825: Top Man – Safety Attendant Duties including	Receiving tasks for working in Organising a safety zone around	2 Days

Assessment Day.	<p>Confirming risk assessments and safe systems of work</p> <p>Controlling entry, working and exits</p> <p>Dealing with emergency situations</p> <p>All at NC2, NC3 &amp; NC4 confined space entries</p>	
Unit 826: Using self contained breathing apparatus in hostile atmospheres	<p>Entering and working in structures which are know to contain irrespirable atmospheres</p> <p>Conducting a dynamic risk assessment</p> <p>Working under permits to work</p> <p>Selecting, verifying function and integrity of breathing apparatus</p> <p>Wearing breathing apparatus in hostile atmospheres</p> <p>Hygiene and decontamination procedures</p>	1 Day
Unit 972: Supervision of work at NC2, NC3 & NC4 category confined spaces inc Assessment Day.	<p>Understanding the legislation applying to confined spaces working</p> <p>Applying the Water UK confined space entry classification scheme</p> <p>Undertaking risk assessments of confined spaces work</p> <p>Working with permits to work</p> <p>Developing safe systems of work and safe methods of work at confined spaces</p> <p>Selecting, installing and maintaining control measures including hygiene procedures</p> <p>Understanding the mechanisms of atmosphere testing an monitoring</p> <p>Developing, installing and maintaining emergency plans and procedures</p> <p>Maintaining records and documents for confined spaces working</p> <p>Above for entries which have been risk assessed and classified within the Water UK confined space entries classification scheme</p>	3.5 Days
