## IOSH Supervising Safely

### Introduction:

This qualification-based programme is designed to provide supervisors and those with similar leadership responsibilities with the knowledge and skills to integrate effective health and safety management along with loss control practices into their leadership role.

### **Aims:**

#### **By the end of the course delegates will be able to:**

- Review the safety management arrangements in their area(s) of responsibility
- Appreciate the safety and legal implications of day-to-day team management decisions
- Contribute to the development of more effective safety management arrangements
- Take steps to develop a positive safety culture

### **Course content:**

- Principles of health and safety management
- Health and safety policy, arrangements and best practice
- An overview of key safety legislation and regulations
- Principles of risk assessment
- Safe systems of work
- Accident reporting and investigation
- Human factors
- Monitoring and auditing

### **Who should attend:**

Team leaders, supervisors and anyone with leadership responsibility for staff, as well as those who need a clear understanding of the key elements of effective health and safety management and associated legislation.

### **Duration**

Duration	Duration	Delegates
IOSH Supervising Safely	3 Days	12
