Safe Use of Pesticides

COURSE OVERVIEW

This one day course is suitable for anybody involved in the storage, handling and application of pesticides. This course must be completed by all delegates who use either handheld or tractor mounted sprayers.

COURSE CONTENT

- ✓ develop knowledge covering the requirements of current legislation
- ✓ apply pesticides safely and efficiently with a hand held applicator fitted with hydraulic nozzles
- ✓ identify and select appropriate nozzles, carry out machine preparation and calibration
- ✓ operate the equipment in compliance with current legislation and codes of practice
- ✓ clean equipment, and dispose of unwanted pesticides and containers
- ✓ identify and rectify faults and recognise conditions when spraying is inadvisable
