Asbestos Awareness

Introduction

The one-day course is intended to ensure that duty holders are able to comply with the full range of responsibilities detailed in the regulations in a practical and cost effective manner.

Aims

By the end of the course delegates will be able to:

Understand current general legislation.

Participants will know where asbestos is likely to be located in different types of premises, know what precautions they need to take to protect themselves and others when completing the identification process, know the range of methods to record the locations of asbestos. Give participants understanding of the requirements of Control of Asbestos at Work Regulations.

Who should attend?

This course is suitable for persons who have to manage operations involving potential contact with asbestos containing materials

Course content

Legislation including Health and Safety at Work Act 1974, Control of Asbestos at Work Regulations.
