CDM Principal Contractors Duties

Introduction:

This 1 day course combines tutorials with interactive exercises that have been developed to provide all parties involved in the construction process with an understanding of the Construction, Design and Management (CDM) Regulations, together with a full appreciation of the problems and practicalities of its application. The roles and responsibilities of the Principle Contractor under CDM are given extensive coverage, together with the suggested contents of Health and Safety Plans and Files

Aims:

By the end of the course delegates will be able to:

Have an improved awareness of their company's criminal and civil liabilities
Be aware of the company's liabilities regarding other duty holders
Identify other legislation relating to the construction process
Possess an improved knowledge of the legal requirements within the CDM Regulations
Have a better understanding of the problems faced by the various parties involved in the CDM process
Have an appreciation of the roles and responsibilities of Client, Designer, Planning Supervisor, Sub- Contractors concerning risk assessments and safe systems of work
Be aware of the requirements regarding Health and Safety plans and files
