Confined Space Awareness & Refresher

Introduction

This course covers current legislation, hazard identification, safe working practice, equipment selection and confined space entry. A certificate valid for 3 years shall be issued upon successful completion of this course.

Benefits to you and your organization

By the end of the course delegates will be able to:

- Understand current legislation regarding confined spaces
- Recognise types of confined spaces and their associate hazards
- Implement control measures to either eliminate or reduce potential risks
- Organise and implement appropriate accident and emergency procedures
- Select appropriate equipment for different types of entry
- Use gas monitoring equipment and escape breathing apparatus
- Use access equipment including harness, tripod and winch system

Who should attend?

This course is designed for all personnel who are required to enter confined spaces by their employer. The course is generally suitable for confined space entry outside the sewerage industry. A two day entry course would generally be required for entry into sewerage systems. The course also serves as a refresher course for the two day course.

Course content

The content of the course includes information and training in:

- Definition and types of confined spaces
- Legislation
- Confined space hazards
- Permits to work
- Safe working procedures
- Hygiene
- Personal protective equipment
- Gas detection
- Access equipment
- Selection of equipment
- Accident and emergency procedures
- Practical confined space entry
- Candidate Assessment
