Excavator 360⁰ above 10T

Introduction

Every year many operatives are injured or killed whilst operating mobile plant and equipment. All drivers of any plant and equipment should be aged 18 or over, adequately trained, competent and authorised to operate plant. This course is designed to provide candidates with theoretical knowledge and practical training to safely operate an excavator 360⁰ above 10T as required by current legislation.

Aims

By the end of the course all delegates will:

- Identify the basic construction and components, and the purpose and use of all controls and gauges
- Identify and comply with manufactures instructions in accordance with the operators handbook, other information sources i.e. load charts and applicable regulations
- Carry out all pre-use and running checks
- Configure the excavator for site travel
- Travel over differing types of terrain, including rough undulating ground and substantial inclines
- Manoeuvre in confined areas
- Set the machine to excavate
- Excavate below ground level on a variety of excavations in different ground types
- Place spoil in various types of vehicles / hoppers
- Grade, spread and level different types of terrain
- Remove and re-attach buckets
- Place the machine in an out-of-service condition
- Explain the loading and unloading procedures on and off a transporter

Who should attend?

Any person required to operate an excavator 360⁰ above 10T within their workplace or wishing to improve their operating skills and knowledge.
