## Side Loader

### **Introduction**

Fork lift trucks (FLT's) feature prominently in workplace accidents. Every year there are about 8000 lift truck accidents resulting in injury, and on average 10 of them are fatal. Even if people are not injured in Flt accidents there could be damage to buildings, storage systems or stock.

### **Aims**

By the end of the course all delegates will:

- have an understanding of legislation applicable to Sideloaders
- understand the principles of stability
- be able to carry out pre use checks
- operate the Sideloader in accordance with the operator safety code
- carry out shut down procedures

### **Who should attend?**

Anybody who are required to operate Sideloaders within their workplace

### **Course content**

Health and Safety at Work Act 1974, PUWER 98, LOLER 98  
Approved Code of Practice L117 "Rider Operated Lift trucks – Operator Training"  
Pre operational and operational checks  
Safe manoeuvring laden and unladen  
Loading, unloading, stacking and destacking  
Correct parking procedures
